The papers never said a word about the Alberta policeman who entered one of the houses in a red-light district recently and tried to borrow \$100. We always thought that it was the duty of police officers to try to suppress such bushes places, but it seems that the officers find them very convenient neighbors at times.

The Ford is certainly the family car. It has a tank for father, a hood for mother and a rattle for the baby. They are making Ford's shorter next year than formerly so they can get more of them on the road at one time. They are painting them yellow so they can sell them in bunches like bananas.

### Hart To Be Tried For Murder on Nov. 2nd

The preliminary trial of Philip Hart on the charge of killing his wife by shooting on the evening of Tuesday of last week, took place at the Bellevue mounted police barracks on Tuesday forenoon.

The Court was presided over by Inspector Junget, of the R.N.W.M.P., Crown Prosecutor Campbell appearing for the Crown, and L. H. Putman for the accused.

The evidence of Mrs Sargent and Ambrose Oliver, as well as that of Dr. Mackenzie was taken, and the prisoner was reminded to be tried at the sitting of the Supreme Court at Macleod on November 2nd.

### TEN YEARS AGO

(From The Blairmore Times, 1905)

The electric light poles have been placed in position on our streets, and it is promised that the wires will be strung and the town lit up by the end of this month.

To Banffé the School will be open

between now and the end of the year a sum of \$1,485.00 less to be paid. The end of this month is the last day to obtain the 5 per cent discount of 1915 taxes, and should it be seen that the taxes have not come in, then the Finance Committee of the Town will have no other recourse than to inform the School board that they are unable to meet their obligations to the board. There are some ratepayers who are at least able to pay a part of their outstanding indebtedness to the Town, and as a matter of business, for the benefit of themselves, and the Town, in general, it behoves them to make more than a passing effort to liquidate their tax liability.

Yours truly,

### Town of Blairmore

#### NOTICE

Blairmore, Alta., Oct. 21, 1915

#### To THE RATEPAYERS OF BLAIRMORE:

If the schools are to be kept open beyond this month, it is absolutely necessary that a big effort must be made to pay into the Town some of the taxes outstanding. Beyond the sinking fund, which is demanded by the Department of Municipal Affairs, there is little or no money in the Treasury. This sinking fund, which is created to meet debentures becoming due has about \$2,600 to its credit, but before all the debentures due between now and January next can be met, there will have to be another \$2,000 paid to its account, as the total amount due to the Town and school debentures amount to \$4,600.00.

To Banffé the School will be open

between now and the end of the year a sum of \$1,485.00 less to be paid. The end of this month is the last day to obtain the 5 per cent discount of 1915 taxes, and should it be seen that the taxes have not come in, then the Finance Committee of the Town will have no other recourse than to inform the School board that they are unable to meet their obligations to the board. There are some ratepayers who are at least able to pay a part of their outstanding indebtedness to the Town, and as a matter of business, for the benefit of themselves, and the Town, in general, it behoves them to make more than a passing effort to liquidate their tax liability.

D. A. SINCLAIR,  
Mayor.

#### Blairmore Red Cross

This branch of the Society has voted the sum of \$5,000 monthly, to be sent to the Oden Convent School at Calgary. This institution will appeal to us all, and we hope to increase our subscription at an early date.

We are pleased to note the number of new members enrolling. There are many in the town who can help, and all are needed. Do not wait for an invitation. Come out and join. We wish to double the amount of supplies sent out last year.

The sum of \$7.20 (seven dollars and twenty cents) was received from the last pay-roll of the West Canadian Colliers at Greenbank, making a total of \$38.95 for the month of October.

The provincial depot acknowledges the following shipments:

Colman Red Cross branch—45 surgical shirts, 28 triangular bandages, 8 pair socks, 40 knit washings, 142 white handkerchiefs, 12 bedsheet bags, 14 white handkerchiefs, 12 bedsheet bags, 11 many-tailed bandages, 6 "T" bandages, 21 wrist splints, 13 handbags, 6 hot water bottle covers, 38 triangular bandages, 15 pair socks, 17 personal property bags, 24 bedspreads, 2 surgical shirts, 1,000 mouthwashes, 36 large pads, 60 gauge wipers, 15 gauge bandages.

Blairmore Red Cross branch—35 surgical shirts, 28 triangular bandages, 8 pair socks, 29 straight bandages, 20 personal property bags, 20 many-tailed bandages, 19 washings, 9 abdominal binders, 8 pillow-slips, 5 bedside bags, 105 roller bandages, 145 "T" bandages, 24 bedspreads, 43 gauge wipers, 96 compresses.

As the result of yesterday's campaign on behalf of the British Red Cross, the sum of \$59.85 was collected locally. We understand that \$55.00 was collected by Mrs. Mark Drummond at Franky, and is being sent direct from there.

The war in which we are engaged is a righteous cause, a struggle for truth, liberty and for the sacredness of treaties and the great world.

If you can't go yourself, you can help to make it possible for others to go by giving money, or if families will be pleased to do it in their absence.

The object of the Canadian Patriotic Fund is to make provision for all families of soldiers going from Canada to take part in the present war.

Those who have gone to the front are making greater sacrifices than anything we can do at home.

An unselfish patriotism in the world.

1. You owe to your country, and to the Empire of which we are a part, either to fight yourself or to help to make it possible for others to fight in this supreme struggle.

2. As a Canadian you have enjoyed the protection and privileges of British Citizenship and have never yet been called upon in the defense of the Empire.

3. The mother country has for years, practically borne the burden of your protection.

4. In this hour of trial we desire Great Britain to realize that every Canadian is supporting and upholding her cause.

5. The war in which we are engaged is a righteous cause, a struggle for truth, liberty and for the sacredness of treaties and the great world.

Old Prejudices Have Passed Away by  
the Influences of the War

There is a renewed hope in Canada that the Dominion will enter into another confederation and thus round out the Dominion. The old time provincial antagonisms have been swept away by the common experience of war and the ancient colony now realizes that its future safety and prosperity is in the dominion. The imperial and dominion authorities have welcomed the entrance of Newfoundland into confederation and will encourage such action. To Canada for defense, protection and security, the dominion land is necessary to it. It holds the key to the St. Lawrence, the great Canadian artery of commerce. The old prejudices have passed away. This old province has the men of Newfoundland serving in the Canadian sailors who are not like the sailors that there are not like the sailors that they would supply Canada with a naval reserve now much needed.

The old province is expected to be willing to effect an arrangement if the terms can be made agreeable.

"Your honor," said the arrested chauffeur, "I tried to warn the man, but the horn would not work."

"Then did you not slacken speed rather than turn him down?"

A light seemed to dawn upon the prisoner. "That's one on me. I never thought of that."

"Was it your craving for drink that brought you here?" asked the sympathetic visitor at the jail.

"John Scott, ma'am. Do I look stupid to you to mistake this place for a saloon?"

Chatham, Ont.—"Some time ago I had a general headache. It terminated in quite a bad case.

Dr. Pierce's Favorite Prescription was recommended to me by a friend who used it and received great benefit. I had gas taken out and in six months I was completely cured of my ailment and have not had a return of same. I can recommend this medicine as being good. If only it will give a fair trial!"—Miss John Alexander, 67 Edgar St., Chatham, Ont.

A Londoner was showing some country relatives the sights of London one day recently, and was pointing out the most interesting buildings when he was stopped by a famous and rather unscrupulous lawyer of his time.

"And," said the Londoner, "wasn't he a jolly fellow to build a house like that by his practice?"

"Yes," was the reply, "by his practice and his practices."

## Rations for Horses

### Relative Values of the Most Common Foodstuffs For Horses

Like oats, timothy is considered by many horses indispensable to the best horse ration. But this is by no means the case. Of the most available of the bays, timothy is the lowest in digestible protein content. Its greater palatability is due to the fact that it is usually brighter and freer from dust than the other grasses also. It relishes by the horses. However, either clover or alfalfa is the choice. If fed judiciously, will make good roughage for the horses.

Alfalfa has a nutritive ration of about 1.4, that is to say it is very high in protein, and about as high in digestible protein as timothy. Because of its high protein content it has a slightly laxative effect, but this may be overcome by cutting the alfalfa larger in the bloom. Under this condition it makes a most excellent horse feed for brood mares and colts, and it can be fed with great profit to working horses. The horses relish the hay and hold their weight, and even gain under steady work. They also show as much muscle and vitality as though they were fed timothy.

Clover is another excellent roughage, and many horsemen have found it more valuable than timothy hay. It has a high nutritive value, and is very palatable. Objections raised to it are that it is too dusty, and too rich in protein for driving horses. For the farm work horse, however, when well managed, is quite free from dust, and makes a roughage that gives the very best of results.

We have in mind of the relative values of the most common foodstuffs for horses, we are now confronted with the economical feeding of the racing horse. After all, cost is the determining factor in choosing feeds for a ration: Are such feeds the most available under my conditions? Are they the most economical at the least cost. In the first place, we must have a certain amount of grain in our ration. This is obtained from a single crop.

In the second place, we must have the required nutrients to keep up the energy of the horses engaged in the work. And this is supplied by the concentrates.

Practically the most common rations for horses consist of timothy for roughage, and oats as the concentrate. Oats is almost a balanced ration alone, and is the most nutritious grain. But, other a more nearly ideal ration would result. The oats need not be ground unless the horse is under an unusually heavy strain, or has bad teeth.

Great care should be taken in the feeding of oats, as they are liable to become rancid, and the feeding of this ration about one pound of hay an' one pound of grain per 100 pounds of weight for every 100 pounds of live weight of the animal. To keep the horse in a good healthy condition, a warm bran mash should be fed with the ration. When the bran reaches the proportions of the other two—the campaign for recruits and the campaign for money—it is in earnest still.

# GREAT IMPORTANCE OF COAL IN SUCCESSFUL PROSECUTION OF WAR

DAVID LLOYD GEORGE MAKES STIRRING APPEAL

In Addressing the Coal Miners, Urging a Greater Production of Coal, he Pointed out that it is the British Miner Helping the British Sailor, that is a Big Factor in the War

Mr. David Lloyd George has made many important and eloquent speeches since the war began, but few of them have equalled in effect that which he made to the coal miners in London on July 1st, when he had the foresight to look at the wide stretches of blue still smiling in the sky.

"I tell you what I think about the sky. The sky is mottled. There are some people who can see nothing but the black smoke in the sky, and the world would be a better place if they could. I have had the foresight to look at the wide stretches of blue still smiling in the sky."

There are some, on the other hand, who, from their gare, rigidly on the clear air above the seas. They are more distant, but they are immeasurable, the dark thunder clouds that are rolling up in the east and the grey sky which is hanging so heavily over the level plains of Flanders and of France.

But sky stoning is not enough for us. We have to put forth all our strength, and we must do whatever they mean, portend; that they mean a larger share than ever of the burden of this struggle will rest upon the shoulders of Britain. Do not shrink from it. We must pay the price of victory if we are to get it."

Victory has its price. It is no use calling attention to the cost we have incurred—hundreds of thousands or even millions of men gathered together to go into the battlefield, thousands of millions of ex-members which we are incurring.

The one question is whether it is worth the price of freedom for ages to come. That is that fair?

A man, like a miner as a worker, a politician, a singer, a footballer, a soldier, the minister of munitions went on to say:

"We are in a great crisis. The dead and for coal is greater than ever. The supply of labor is less than ever. The most important element in the industrial life of the country. The blood which courses through the veins of industry is coal. It is coal that makes distilled coal, in peace and in war. King Coal is the paramount lord of industry. It seizes into every article of commerce and production."

It is our real international cohesion. We buy goods, food, and raw materials. We pay taxes, and we pay in coal. We live in diamonds, except that they are black, and not in gold.

It brings meat and bread to us from the counter there for it out of its own pocket. We cannot do without coal. It was coal that won and death for our foes. It not merely fetches and carries for us; it makes the material and the machinery which it transports.

It bends, it molds, it fills the weapons of war. Steel means coal. Iron means coal. Coal shells are made with coal. Shells are filled with coal. Cannon and gun shells are made with coal. Shells are filled with coal. The very explosive inside them is coal. They are put on them right into the battlefield to help our men.

Coal, everything for us, and we want more of it to win victory. Coal is the most terrible of enemies, and it is the most treacherous of friends. You read that the Germans are to be beaten by the prime minister the other day. Three hundred and fifty thousand British soldiers. They were conquerors in India, Germany working by the Westphalian manner, working in cooperation with the Prussian engineers without skill, without resource, without sagacity, putting their strength at the disposal of their Fatherland. Coal did that.

Then, and while the German fleet was finished from the face of the sea, who has done it? The British miners helping the British sailors.

I have stood on Beachy Head. It is a fine sight in days of war. You will read in the papers about the admiral, the admiral, the admiral, and their "gigantic" armies, and there will see scores of great British ships tranquilly gliding through the waters without any infi-

terence. Why? Coal propels them, and coal protects them. For you will only be in peril for short time you will come a British battleship tearing along. You may not see the coal smoke, because the coal is burned. But you know it is there, for you see the vessel tearing along, and you know there is coal in the tanks. And when now, if the news arrives that mighty cannon on its decks will be filled with distilled coal that will bring destruction to your country.

Then Mr. Lloyd George dwelt upon the importance of the miner and went on:

"The fact that the country is in peril that permits the appeal to all classes to set aside every regulation. Can anything be more remarkable than that the situation is so serious if not a perilous one, I speak with trepidation when I refer to this."

The use to be a naval school and a military school, a naval school which depended entirely upon the strength of the navy to protect against invasion, and it was called the Blue Water School. The new parties are the Blue Sky School and

the Blue Earth School.

**Allowance for Canadians**

Will be Paid \$1.75 a Week Through United States Ambassador at Berlin

The Canadian prisoners of war in Germany are to receive \$1.75 a week, which will be paid extra expense by the British government. The boys in Germany will have

\$1.75 with which to buy extra eat-

ing. Requests have been made to the British and German governments to permit the Canadian prisoners to be repatriated.

Nothing we can say can make more to do with the Canadian pris-

oners than the spirit which will enable them to win through. Nothing short of it will achieve success.

## Soldiers Piling Up Savings

Most of Those at Front Are Leaving Pay on Credit

Canadian soldiers at the front, including those who are now prisoners of war in Germany, are piled up with a large sum of money due to the Canadian government. The pay allowance to the Canadians is in most cases being held back by the London remittance office, as the men at the front have little opportunity to spend money while in the war zone. The amount of money is a small portion of it to their credit in London. According to advice received at the British embassy, the Canadian government is holding back a considerable portion of this accumulated pay recently invested in the request of the soldiers, in bonds and stocks, to be used for the benefit of the recent war.

The Canadian prisoners of war in Germany are also accumulating a large sum of money due to the government, as the pay is being withheld from the Canadian government.

There are some, on the other hand, who, from their gare, rigidly on the clear air above the seas. They are more distant, but they are immeasurable, the dark thunder clouds that are rolling up in the east and the grey sky which is hanging so heavily over the level plains of Flanders and of France.

The problem confronting the  
union committees of Blairstmore  
Baptist and Presbyterian congrega-  
tions is whether they are in  
future to put up with "dry clean-  
ing" or an ordinary "bath."

Justice in some parts of Canada  
is somewhat on the spider and the  
fly system—"If you're caught, you  
will be punished." It's apparent-  
ly not necessary to know whether  
or not you intended to offend the  
law.

Irene Hunt in the four-part  
Mutual Masterpiece "The Out-  
law's Revenge In The Dawn of a  
New Republic" makes the part of  
the lame sister intensely sympathetic.  
Miss Hunt, who is an unusually  
attractive and pretty woman,  
finds a great deal of pleasure in  
demonstrating her ability as an  
actress by playing a part like this.  
She does not like to feel that she  
has to depend on her looks alone  
when it comes to screen work.

The world is divided into two great
